Business Analyst Internship

Established in 2021, AgTech-Pro is a growing AgTech consulting firm that's big enough to help agricultural business scale – yet small enough to give clients the personal attention they deserve. Headquartered in New York, AgTech-Pro has a deep passion for farming, agricultural innovation, and digital agriculture. We are on a mission to transform the global food production system to feed a growing global population in a future-proof way.

We have a soft spot for rising businesses devoted to making a difference while solving the pressing challenges faced by today's global agricultural industry. We strive to help our clients create holistic solutions that are easy to implement and even easier to use, becoming an intrinsic part of the farming workflow.

But in the end, it's simple: We started AgTech-Pro because we love agriculture, technology, and the people we meet and delight along the way!

Grow with us and join our team as an **Business Analyst intern**, where you will be instrumental in assuring our clients receive the best insights. The internship will be for a duration of 6 months (with the potential to extend) and the hours will be flexible, based on your availability as well: 20-40 hours. In this role, you will directly report to our founder.

Intern Job Responsibilities:

As an Business Analyst intern you will research and learn about the latest trends and developments in AgTech Industry. You will support our market research projects, innovation, and trend scouting, as well as client competition analysis. Besides, you will:

- Understand the overall concept of the company, including the brand and network
